MINI FORECAST SERIES
2" X 6"

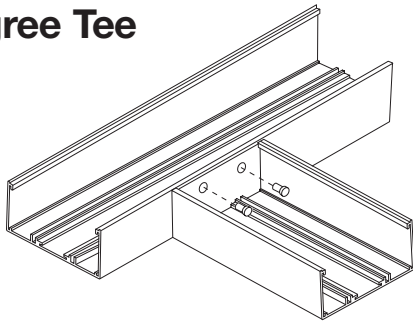

ACCESSORIES

Corners - Inside or Outside 90 degrees

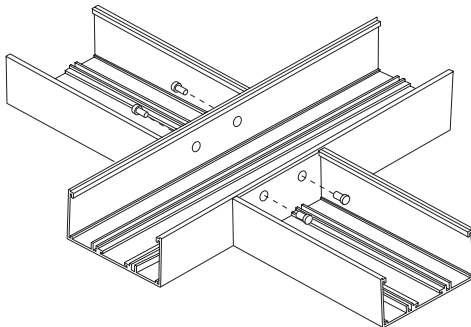

All 2" x 6" corners are hand fabricated from extruded aluminum. The corners are all welded for strength and hand finished for a smooth and seamless appearance. Custom corners are available to accommodate specific room dimensions. Consult factory.

90 Degree Tee

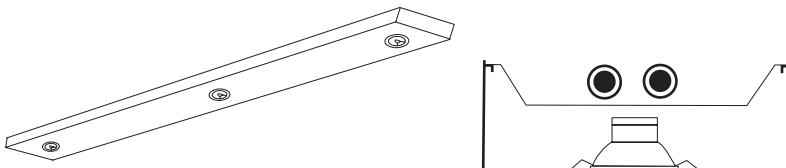

For grid installations that require the use of T's or crosses, consult your Forum Factory Representative.

90 Degree Cross

For grid installations that require the use of T's or crosses, consult your Forum Factory Representative.

20 Watt Fixed Halogen Downlight

Typically spaced every 24" on center, the 20 Watt Downlight can be used almost anywhere along the length of the extrusion and is available on all three models (Indirect, Indirect/Lens, Indirect/Baffle). Supplied with clear tempered glass and lamp, the trim ring is supplied in white (WH). Other finishes include Chrome (CH), or Satin Nickel (SN).
