**F - Overlap Flange**  
(drywall, wood, metal applications)

**FF - Flange Free**  
(seamless drywall application)

## SPECIFICATION

\* Forum reserves the right to change this information at any time

**HOUSING:** 18 GA cold rolled steel in a pre-paint white finish. Built in individual pieces up to 8 ft in length. Sections can be joined to form continuous runs.

**GEARTRAY / REFLECTOR:** Integrated geartray and reflector made from 20 GA cold rolled steel in a pre-paint white finish. Fully wired unit remains completely accessible from below via ballast panel.

**TRIM/FLANGE:** Extruded Aluminum trim is run around all 4 sides of the fixture body. Provides a clean and precise finish and is available for a number of ceiling applications.

**SHIELDING:** Satin frosted and white opal lenses are available and are of a lift-and-shift nature.

**BALLAST:** Electronic, high power factor, low THD, ballast used. 120V, 277V, and Universal Voltage available standard. Please consult factory for special ballast requirements.

**LISTING:** All fixtures bare an AFL-CIO/IBEW union label and are UL listed for recessed dry location. For alternative location configurations, please consult factory.
