32 RGBW

The Hydro RGBW series by Forum is a robust linear luminaire, capable of withstanding the harshest of environments. The housing is constructed from aircraft grade aluminum with exterior grade powder coat finish and sports a premium fit and finish. The optical compartment is weather sealed behind a tempered glass lens and a masked perimeter creates a refined aesthetic without compromising the IP66 rating. Hydro is available in a variety of optical and mounting configurations, including RGBW and Tunable White. Current's patented TriGain<sup>®</sup> phosphor delivers 90 CRI color quality at 80 CRI efficacy.
